

To Whom It May Concern:

We would like to say that we were very satisfied with Music Central DJs. Mike and Brenda were very professional handling every aspect of our reception. My husband and I were able to have fun at our own reception without being worried about if everything was going to be taken care of. Brenda announced everything so people were informed of what was going to happen while Mike played songs that we approved of and there was not a moment of dead time. We were also very impressed by their presentation. They dressed very nicely, their booth looked very attractive and the lights were just enough without being overpowering. Thanks again for everything you two did for us!

Best Regards,
